

Light your Porch Purple!

November is Prematurity Awareness Month

Join the fight for the health of all moms and babies this November! More than 380,000 babies are born prematurely in the U.S. each year – that's one baby every two seconds.

I will be shining a purple light on my porch throughout the month of November to observe Prematurity Awareness Month. As a Tri Sigma member and a proud March of Dimes supporter, I would be delighted to have you join me! Will you light your porch purple to show your support?

Let others in your neighborhood and community know you fight for the health of all moms and babies. I'd be delighted if you would show your support by taking a picture and posting on social media using hashtags #prematurityawareness#TriSigma and tag @sigmasigmasigmanhq and @marchofdimes.

Thank you!,

How to Light your Porch Purple

November is Prematurity Awareness Month

1. Purchase a purple light bulb from a local department store (check after Halloween sales) or order from [Amazon](#).
2. Replace your front porch bulb with the purple bulb for the month of November.
3. Take a picture and post on social media using hashtags #prematurityawareness #TriSigma and tag @sigmasigmasigmanhq and @marchofdimes
4. As your neighbors and friends ask about your purple light tell them that more than **380,000 babies are born prematurely in the U.S. each year**—that's one baby every two seconds.
